Space Shuttle Endeavour Flies over City of Good Neighbors

Flying across the country and the state on the back of a specially modified Boeing 747 Shuttle Carrier Aircraft, Endeavour arrived at LAX on Friday, Sept. 21. Endeavour will spend a few weeks at a United Airlines hangar undergoing preparations for transport and display. Then, it will travel a 12-mile journey from the airport to the California Science Center, arriving on the evening on October 13. Photo by Neill Pollack.

Council Tables Gold's Gym Bankruptcy Matter; Introduces Ordinance Prohibiting Sex Offenders from Living Near Schools, Entering Parks

By Nancy Peters

To a packed room on Tuesday, the Hawthorne City Council voted on several resolutions, introduced new ordinances, held two public hearings, and allowed public communications to extend for more than 90 minutes. The crowd included many younger citizens, most in uniform, representing a group of players from the Hawthorne American Little League and their parents. Their support was for a topic not on the extensive agenda and one that could be handled by a staff member or the Parks and Recreation Commission.

The information from the podium on the use of Jim Thorpe Field by this group and some older baseball players left regular meeting attendees puzzled. The attention granted to this topic, with so many other relevant business matters on the agenda, resulted in a Council member offering her mediating services. One speaker's lack of adherence to the submission of a speaker request card and his handoff of an armful of supporting documents for each Council member showed he was clearly prepared for this meeting. Many others approaching the podium to support one or the other of these opposing groups stretched the evening well beyond four-and-a-half hours.

Councilmember Nilo Michelin showed that the process of an idea to an ordinance can be accomplished in only three Council meetings. He introduced an ordinance prohibiting any sex offenders from living closer than 2,000 feet from a school or park and preventing these same convicted and registered sex offenders from entering any parks or sports facility operated by the City. This will be enforced with either jail time or a fine of \$1,000 for each and any offense. The ordinance will require a second

reading and a vote to become law.

Mayor Pro Tem Angie Reyes-English introduced another ordinance to disqualify any applicant for employment with the City if a criminal conviction record for embezzlement of public money is discovered in a pre-employment application, regardless of conviction or whether it is considered a felony or misdemeanor--and this disqualification shall last for five years.

An ordinance was approved by a vote of 5-0 to set a definition, classification and development of standards for recycling facilities to put controls on such facilities as to their location and how these facilities must be in compliance with standards set forth by the City in order to operate with the city limits at pre-designated and approved locations.

In a very confusing item, the Council resolved by a vote of 0-5, thus rejecting the resolution, to support California Proposition 36. This proposition would change the "Three Strikes Law" and allow resentencing of those offenders currently serving time for non-violent and non-serious crimes for these third offenses, possibly putting these offenders back into the general population so as to avoid continuing overcrowding in the prisons and jails. Councilmember Alex Vargas asked how this resolution was on the agenda, but there was no clear answer from Interim City Attorney Kunle Aderonmu and no clear explanation on how a "yes" or "no" vote would affect the support or non-support of the proposition from the City.

News for the City of Good Neighbors

Identity Theft and Life with Passwords

Remember the days when you could throw away anything in your household's one and only "garbage can"? While growing up, my mother would remind me to take the trash out every evening following dinner. We only had one metal trash can. The trash truck would come around each week and the garage men would actually pick up the cans and pour them into the back of the smelly trash truck. How things have changed. Now, we have three trash containers on wheels that we roll out to our curb each week. We sort things out by how well they biodegrade. One of our biggest concerns is the availability of sensitive personal information that can be found on our financial and business documents. Identity theft has become the fastest growing crime in America. I speak of this from a recent personal experience. While on vacation, my daughter called to tell me that a letter came in the mail indicating that someone had opened a new credit card in my name. Luckily, we were able to stop the card from being used, but my identity information had been obtained and now it is "out there". After filing a police report and calling three credit reporting firms to put "fraud alerts" on all my accounts, I feel a little relieved.

The Internet has advanced communications and made information much more accessible. With these advances the ability to steal information and do damage to someone else has become easier. A few years ago, no one needed a password to get access their bank account. No one needed to answer security questions to get onto a website. Yes, technology has improved our lives, but it has made it more of a challenge to protect ourselves from theft.

WE ARE NEIGHBORS

The definition of a neighbor is a fellow human being. Every human being is somebody's neighbor. We have been commanded to love our neighbor as we love ourselves. Not one of us was born into this world alone. Every one of us was made in the image or likeness of God. We are all related on a cultural, spiritual, historical and/or biological basis. We all experience life in the same realms: the physical, social, economic, material, natural and supernatural. As individuals, we are a spirit, we live in a body, and we have a soul. As human beings, we all have this in common: we need to love and to be loved. We all express ourselves the same way: through love, hatred and/or indifference. We all communicate with the same languages, be it sign, body or

verbal. We all connect with each other the same way: either locally, nationally and/or globally. We stay in touch with each other the same way via telephone, Internet, cable, fax, wire, telegram, letter or post card. We all have these same needs: to eat, to sleep, and to go to the lavatory. Every one of us share these same features: a nose, a mouth, two ears, and two eyes. And I see someone who looks like you everywhere: when I look at a friend; when I look at a stranger; and when I look in the mirror. We have a myriad of things in common, and we are too much alike to let our differences define who we are as human beings. Who am I? I am your neighbor. Love me.

Lawndale Rallies for Overtime Win

By Joe Snyder

Lawndale High's football team finished non-league play with its best record in three seasons after coming from behind for a 34-31 overtime victory over Rolling Hills Estates Peninsula last Friday at Lawndale. Down 28-14 at halftime, the Cardinals came back with 14 unanswered points to knot the game at 28 when Emergerson Lambert scored on a 25-yard touchdown run with 25 seconds left in regulation. After the Panthers (1-3) grabbed a 31-28 lead on a 28-yard field goal from Tony Burnsbag, Lawndale was able to pull out the contest when running back Timothy Jones scored on an eight-yard run.

The game started out seesaw as Peninsula scored first on an 86-yard run by James Nelson, but the Cardinals (3-2) tied the game when quarterback Anthony Chatman completed a six-yard TD pass to Tyler Young. The Panthers regained the lead at 14-7 when Nelson scored on a three-yard run.

Lawndale tied the game early in the second period on a 71-yard touchdown run from Chatman, but Peninsula scored two unanswered TDs, both on passes of 19 and 23 yards from quarterback Ian Escutia to wide receiver Zack Riley. In the third quarter, Lawndale cut the Panthers' lead to 28-21 on Chatman's five-yard scoring run.

The Cardinals had a very good rushing attack as Chatman ran for 123 yards and two touchdowns. Jones added 102 yards and two TDs. Lawndale's 3-2 preseason record is the best since starting its 2009 season at 4-1.

The Cardinals, who already clinched the mythical Centinela Valley Unified School District championship with one-point victories over rivals Hawthorne and Leuzinger, have a bye this week, which will be needed. Things could be a lot different in the very highly competitive Pioneer League as Lawndale begins at El Segundo on October 5.

LEUZINGER FALLS TO TORRANCE

Leuzinger High's football team got off to a slow start as it lost a home non-league game to Torrance High 26-7 last Friday. Over the past few seasons, the Tartars have thrived on their strong rushing attack from their Double Wing T offense and they put it on the Olympians. Torrance, which improved to 2-2, rushed for 261 yards.

The Tartars scored on their first possession of the game on a 52-yard run by running back Bobby Wilson, who finished with 139 yards on the ground. Torrance would go on to add three more TD runs of 21 by Jonathan Heard, 12 from Sam Hudson and 15 by Gamal Miller for a 26-0 lead by early in the fourth quarter.

Leuzinger (0-4) broke the shutout when quarterback Sami Puloka scored on a three-yard run late in the final period. The Olympians struggled on offense throughout most of the game, including mustering just 26 total yards and two first downs in the first half.

Leuzinger hopes to bounce back and pick up its first win in two seasons as it visits Hawthorne in their annual Mayor's Cup rivalry Friday at 7 p.m. The Olympians' last victory was in 2010 when they won their ninth consecutive Mayor's Cup with a 50-30 win over the host Cougars. Hawthorne ended that streak with a 19-9 victory at Leuzinger last season, as Leuzinger had a 0-10 year. The Olympians currently have a 19-game losing streak.

The Cougars are 1-3 after a bye last week. Hawthorne hopes it can regroup after being humiliated at home by Gardena 55-14 on September 14.

MORNINGSIDE DOWNS CENTENNIAL

Morningside High's football team finished preseason play at 3-2 after a 20-6 victory over host Centennial High last Friday in Compton. The Monarchs had a strong game by sophomore running back Christian Williams, who rushed for 91 yards and two touchdowns on 12 carries.

With the score tied at six early in the third quarter, Williams broke loose for a 42-yard run to give Morningside a 14-6 lead. Williams also scored the Monarchs' first TD on a 12-yard run in the first period.

The Apaches (1-3) tied the game at six in the second quarter on a 10-yard TD pass from quarterback Cory Willes to wide receiver Ronnie Smith. Morningside added a fourth quarter touchdown.

The Monarchs have a bye week before opening the Ocean League at home against a very good Santa Monica team on October 5. The Vikings are 2-2, with both losses to very good teams in Santa Ana Mater Dei and Valencia.

INGLEWOOD ROLLS OVER HAMILTON

Inglewood's football team scored early and often as it routed host Hamilton High 54-7 last Friday in the Los Angeles Palms District. The Sentinels started fast, scoring on their first drive on a 57-yard run by Eddie Reyes. Reyes carried the ball just five times, but for 148 yards and two touchdowns. He also had a 65-yard TD run in the third quarter.

Quarterback Rickie Calderon, who transferred to Inglewood from Hawthorne, completed 12 of 18 passes for 194 yards and three TDs, including tosses from 20 yards to Kenneth Johnson and 35 to Mister Jackson.

Inglewood will visit Torrance in its non-league finale Friday at 7 p.m. •

Dodgers Down in the Dumps

By Adam Serrao

The Dodgers may have the joker, but there is certainly no wild card in the hand that they've been dealt this year. On August 13, the Dodgers held sole possession of first place in the National League West. August 13 seems oh-so-far away now. In just over one month's time, the Dodgers have not only dropped out of first place, but also fallen to as many as 10 games back of the San Francisco Giants for the division lead. Not only that, but with two wild card spots available this year, it looks as if the star-laden lineup of the Dodgers will fail to even attain one of those. An offense full of big names that would tickle the fancy of any general manager in Major League Baseball, the Dodgers simply just can't get on the same page. Blame it on injuries, blame it on a lack of chemistry, blame it on whatever you want. With an ownership team that has tried anything and everything to put a winning product on the field this year, the Dodgers' recent performance is nothing short of one big joke.

It may have been a bad decision by Commissioner Bud Selig to institute the rule that allows two wild card teams in each league. Well, the American League is using its opportunity in the correct way--but until a recent hot streak by the St. Louis Cardinals, the Braves in the National League were the only other non-division-winner deserving to make the playoffs. The fact that the Dodgers have been playing as poorly as they have been yet still had a chance to make the playoffs says less about the talent on their team and more about the woeful play of the St. Louis Cardinals during the first part of September that allowed not only the Dodgers, but the Milwaukee Brewers and Philadelphia Phillies to stay in the race as well. As of this writing Tuesday evening, the Cards had righted their ship and pulled ahead of the Dodgers by four-and-a-half games with just eight to play.

"Obviously we could have really been in huge trouble," said manager Don Mattingly last week. "I think we've been lucky to be here right now." Lucky is right. Not to say that there isn't any talent on the Dodgers' roster. There certainly is. Go down the line: Adrian Gonzalez, Hanley Ramirez, Andre Ethier, Matt Kemp, Clayton Kershaw. The list goes on and on. But this year's Dodgers aren't the team that you see on paper. This year's Dodgers team has seemingly forgotten how to play the game of baseball.

The freefall that the Dodgers have been on lately has been going on so long that you

would think Tom Petty was the head of the team--not Don Mattingly. A manager who has been deemed a "players' coach" by all of his confidants, Mattingly has consistently struggled to get all of his players on the same page since the trade. As a result, the team's spirit is gone. Their confidence is nonexistent. A team that previously found so many ways to pull out one-run victories at the beginning of the season has now taken it upon itself to find ways to lose at the end of the games. "I can't really explain to you what's going on," said Kemp, who has seemingly hit a wall. Oh, wait. On August 28, Kemp did hit the wall at Coors Field against the Colorado Rockies and was later taken out of the game. Like a superhero stripped of his powers, Kemp has struggled with the bat ever since. But the All-Star centerfielder for the Dodgers isn't the only one who has been rendered powerless lately.

Since the trade, Adrian Gonzalez has failed to reinitiate himself into the National League as his batting average continues to lag with more strikeouts than RBIs and little big hit potential since his first at-bat with the Dodgers when he homered. Obviously those days, or that day, has come and gone. After a 25-game dry spell, Gonzalez finally hit a couple of homers, but has still not become the player that the Dodgers thought they were getting in the trade with the Red Sox. Kemp and Gonzalez aren't the only ones not producing. There is basically no leadoff hitter in the lineup and the rest of the "big hitters" on the team are batting right around .250 as well. "In baseball, people go through some times where you don't hit," Kemp explained. "It just so happens that none of us are really hitting." If you can't hit the ball, you can't win the game and the Dodgers aren't just failing to hit the ball just sometimes--it has become all the time.

With the season winding down and coming to a close, the Dodgers were still technically in the hunt for the last playoff spot in the National League. After Tuesday night's one-run loss to the Padres, the magic number to be eliminated from the postseason was any combination of four Dodger losses or Cardinal wins. But if the Dodgers find a way to win the rest of their games, who knows? They may just see the Braves in a one-game wild card in which case the Dodgers, behind Clayton Kershaw, would be seen as a pretty dangerous team. Stranger things have happened in baseball. But barring a miraculous winning streak to finish out the year, it certainly feels as if the remainder of this season is a lost cause. •

Politically Speaking

Political Penguin

By Duane Plank

Some things in life are almost preordained, right? Matter of the same-old-same-old will occur. Again. Groundhog Day. Not a matter of if, but a matter of when. What is the best barometer to figure out future behavior? Past behavior. Guarantisado, my friends. In politics, in life.

Cryptic? Not really. With the dirt-bag loons out there running around sporting grenade launchers and other portable weapons of mass destruction in the countries that we are defending, protecting, occupying-- such as Libya--they are determined to wreak havoc on innocents. Not much of a shocker that some of our diplomats and servicemen and women continue to reenter the United States' ground space in flag-draped coffins.

Happier thoughts. Less than six weeks left to the general election, which will most probably allow the current POTUS to occupy his fancy Washington, D.C. digs for another four years. But there will be other issues on the ballot that you will be punching on Tuesday, November 6. And I do hope that you take time from your busy schedule that day, take a break from the texting, uploading, downloading and social media garbage, and actually vote.

And what would also be nice would be if you actually spent a few minutes looking at and studying the propositions and other statewide political races that will be taking place. I know... asking for a lot for you to pay attention to a once-every-four-year nationwide event.

Anyway, one of the Cali props that is kind of more important than the latest social media update is numero 30, which would tax us

Californians more and more, all in the guise of trying to keep the Great Bankrupt State afloat.

And since I have probably mentioned, more than once, that we are sending our best and brightest and only Kid off to college, at the UC Santa Barbara, I am very interested in the way the Prop. 30 voting falls. Either way, it seems, more money will be extorted from the family bank account. Whether it be by the Sacramento-based tax and spenders, or the college admin folks, who seem to be able to just name their price, all in the guise of higher education.

The Cal State school system mouthpieces have already sent a salvo out, threatening to increase fees another five percent if Prop. 30 goes down in flames. And also eager to cash in, the UC folks, who were reportedly "brainstorming" over what to do if 30 tanks, threatened to impose a mid-year tuition increase of up to 20 percent.

Nice. No problem. Just write another check. How about some of these maybe overpaid and underworked admin folks and professors take a similar pay cut? I know it must be really taxing to teach a couple of courses a semester, in a somewhat catatonic state, and collect your bloated salary. But if it is "all about the students," how about a little give-back?

Course I am just blowing off a little steam--don't mean any harm. Actually am pretty darn sure that the collegiate educators and support staff earn their money, work very diligently. Just a little winsome today because we dropped the Kid off on Sunday at the Santa Barbara beachside dorms and he begins classes oh-so-far away from Mom and Dad today.

Guess I will get over it. Lots of parents have, right? •

One Man's Opinion

By Gerry Chong

In Judaism, September 16-18 is Rosh Hashanah, which is both the Jewish New Year and the day God opens the Book of Life and judges all on earth. He then decides who shall live and who shall die.

In light of the events now ongoing in the Middle East, how should God judge the following people?

Hillary Clinton: It was Hillary who established the Rules of Engagement, excluding U.S. Marines from defense of the embassy in Cairo and the consulate in Benghazi--instead assigning their defense to local mercenaries who were not allowed to carry live ammunition in their weapons. When the attacks commenced, they ran.

Susan Rice: The U.S. Ambassador to the UN claimed the attack that killed the American Ambassador in Libya was a spontaneous mob reaction to a rogue film and therefore could not have been anticipated. In contradiction, Fox News reported that there were no protests prior to the attack, and the Libyan President says the attack was not spontaneous, but premeditated and executed by foreigners (read: al Qaeda).

CNN reported that three days before the deadly attack, Jamal Mabrouk, a Libyan security official, and his brigade commander met with American diplomats and warned them about deteriorating security conditions in Benghazi. "The situation is frightening. It scares us," Mabrouk says he told the U.S. officials, but they did nothing.

The UK newspaper *The Independent* says the State Department had credible information 48 hours earlier that the attack was imminent, but it did not warn its diplomats to go on high

alert. Following the attack, papers from the consulate are reportedly missing, including the names of Libyans who are working with Americans.

The UK newspaper *The Telegraph* reported that 24 hours before the attack, Ayman al-Zawahiri mourned the death of Mohammad Hasan Qaed, an al Qaeda operative from Libya, and urged his followers to "puncture the arrogance of the evil empire, America. Zawahiri's urging appeared on a Jihadist website on Monday and the attack occurred on Tuesday.

Jay Carney: Presidential spokesman, parroting the sergeant in *Hogan's Heroes* said, "We knew nothing. The Administration now refuses to answer any further questions."

Barack Obama: The President had not attended any daily intelligence briefings since September 5, fully six days before the deadly attack. After the attack, he waited 15 hours to issue a statement, after which he blithely flew off to a political fundraiser in Las Vegas--skipping even that tragic day's intelligence briefing. ("Briefings? I don't need no steenkin' briefings!")

While the offensive video constituted a spark, Obama's gloating over the killing of bin Laden also sparked Muslim radicals. His DNC Convention slogan, "GM's alive and Osama's dead," was heard around the world and the rioters responded with the chorus, "Obama, Obama, we're all Osama."

In Judaism, Yom Kippur, the Day of Atonement, follows Rosh Hashanah. So after God opens the Book of Life and judges Clinton, Rice, Carney and Obama, can they atone for the consequences of their misdeeds? •

and how to bang them
by Chef Shafer

7 know it's been hot outside lately. But the September winds are just around the corner. One of the things my mentor taught me was that a bowl of soup in your restaurant had to be great. Not good but great! Why? Because the weary traveler in the hotel found comfort in a simple bowl of soup.

So even after 41 years in the restaurant world I still make the soup of the day at the Depot. My routine is to come in at 7:30 a.m. and get my big soup pot nice and hot, then decide what to make. I look in the vegetable refer and check the meats and seafood for inspiration. Then start whipping up a pot of comfort.

Every September I even teach a cooking class about soups. This is one of them from this year's class...

Section 2. The City Council determines that the proposed amendments to the Hawthorne Municipal Code constitute a project within the scope of the California Environmental Quality Act (CEQA) and the City's CEQA Guidelines. The project qualifies as a Class 5 Project (Minor Alterations in Land Use Limitations) pursuant to CEQA Guidelines Section 15305. The amendments do not change the land uses allowed on areas of slopes greater than 20% and do not change allowable land uses in a manner that could create a potentially significant impact on the environment. The Planning Commission has reviewed the Planning Department's determination of exemption and based on its own independent judgment, concurs in staff's determination of exemption.

Section 3. The proposed text amendment helps the City achieve the goals set forth in the City's Source Reduction and Recycling Element (SRRE) adopted in 1992. These goals include:

Extend the lifetime of existing landfills used by the City.

Continue the identification of reliable and new markets for materials diverted from Hawthorne's solid waste stream.

Assist in the development of local, regional and state markets for diverted material. Achieve maximum feasible source reduction, recycling and composting by residential, institutional, commercial and industrial waste generators.

The Recycling Component of the SRRE Section 4.1.2, encourages the City to consider zoning code practices as a tool for evaluating potential impacts of recycling facilities.

Section 4. Chapter 17.04 Definitions, is hereby amended to add the following definitions in alphabetical order as follows:

Collection Facility means a processing facility for recyclables which has processing and storage area and has up to an average of (2) outbound truck shipments per day. Collection facilities for recyclables are limited to baling, briquetting, crushing, compacting, grinding, shredding and sorting of source-separated recyclable materials and repairing of reusable materials. A collection facility for recyclables shall not shred, compact or bale ferrous metals other than food and beverage containers. A collection facility does not include storage containers for clothing and does not include processing activity located on the premises of a

residential use.

Mobile Recycling Unit means an automobile, truck, trailer or van, licensed by the Department of Motor Vehicles, which is used for the collection of recyclable materials. A mobile recycling unit also means the bins, boxes or containers transported by trucks, vans, or trailers, and used for the collection of recyclable materials. A mobile recycling unit shall not occupy an area of more than 500 square feet and shall not be allowed overnight.

Retail Collection Facility means a recycling facility completely enclosed within a building used for the collection and processing of recyclable materials. Processing means the preparation of material for efficient shipment, or to an end-user's specifications, by such means as baling, briquetting, compacting, flattening, grinding, crushing, sorting, shredding and cleaning.

Recycling Facility means a center for the collection or processing of recyclable materials. Recycling facilities include collection facilities, mobile recycling units, retail collection facilities and reverse vending machines for recyclables. A recycling facility does not include storage containers located on the premises of a residential, commercial, or manufacturing use.

Reverse Vending Machine means an automated mechanical device, similar in size and appearance to a soda vending machine, which accepts empty recyclable beverage containers and issues to the consumer, based upon the number of containers deposited or by weight a cash refund or a redeemable credit slip with a value not less than the container's redemption value as determined by the State.

Section 5. Chapter 17.25 C-1 Freeway Commercial Mixed Use Classification, Section 17.25.020, Permitted Uses, is hereby amended to add the following permitted use in alphabetical order: **Recycling Facility** (subject to a conditional use permit and Section 17.25.030 (N))

City of Champions Prepares to Welcome Space Shuttle Endeavour to Los Angeles

Flying on the back of a specially modified Boeing 747 Shuttle Carrier Aircraft, Endeavour arrived at LAX on Friday, Sept. 21. Endeavour will spend a few weeks at a United Airlines hangar undergoing preparations for transport and display. Endeavour will then travel east along Manchester Boulevard from Los Angeles International Airport and rest at Inglewood City Hall for a ceremony marking its arrival and officially sending it to its final home at the California Science Center. Inglewood Mayor James Butts, Congresswoman Maxine Waters, Senator Roderick Wright, Assembly member Steven Bradford and the Inglewood City Council are scheduled to speak. Endeavour will travel a total of 12 miles, the only one of NASA's retired shuttle fleet to arrive at its final destination by way of city streets. It will travel east along Manchester, turn north onto Crenshaw Blvd. and turn east onto Martin Luther King, Jr. Blvd. before arriving at the California Science Center at Exposition Park in Los Angeles. Council

Mayor Danny Juarez made the request at the previous Council meeting.

Part of the Interim City Manager's consent calendar and how the City may be affected by the non-payment of a loan to a business elicited several public comments and then resulted in Juarez recusing himself from the dais due to a conflict of interest. The staff recommendation to accept a settlement in the matter of the City and Muscle Improvement, Inc./Gold's Gym/Abe Tavera's Bankruptcy was eventually "tabled" until additional information could be supplied from the records and many more questions could be sufficiently answered by several past City employees and a past elected official. The unsecured loan of \$2.5 million to the group that allegedly opened Gold's Gym with used equipment and benefited from the deal while the City potentially lost millions (since the loan was not and apparently never will be paid back) could adversely affect the City's budget if litigation ensues and criminal investigations implicate City officials and/or employees.

Juarez asked a series of questions about the matter before he left the dais, such as how did the group and the property become eligible for CDBG funds, which generally are for housing and in specific areas designated for such funds; why a loan was made to an unproven business without protection for the City; and who was part of the legal team that wrote the loan documents, etc. Juarez apparently had been part of an audit team in 2010 that looked into the bankruptcy of Gold's Gym (Hawthorne) and so could not be part of the discussion.

English moderated this portion of the meeting, but chose this time to weigh in and demand

a criminal investigation into the matter. She clearly distanced herself from anything to do with any of the process or any support of the business venture for the City and Gold's Gym. She also alluded to threats she may have received from unnamed sources.

A resolution accepting a grant from Integrated Regional Water Management for \$1.1 million to improve storm drains and infiltration chambers will cause better drainage along Hawthorne Boulevard between Rosecrans Avenue and El Segundo Boulevard improving flood management and the quality of storm drain runoff and groundwater recharge. This grant will also make it possible for a new project that will extend into greater improvements along the community's main thoroughfare. The grant was a competitive bid process with many other cities applying and only six grants awarded.

A Federal Aviation Administration grant will pay for improving the fire and life safety systems as well as a new water main line and sprinkler system in the amount of \$1,098,000 at the Hawthorne Airport Air Traffic Control Tower.

A public hearing preceded the approval of the 2008-2014 Housing Element and General Plan Amendment. The second public hearing resulted in approval of the Consolidated Annual Performance Evaluation Report (CAPER) for CDBG and HOME fund for the 2011 program year and submission to HUD to receive approved funds.

The month of October is designated as "Domestic Violence Awareness month by resolution. A resolution also was voted upon to support the Proposition 39 "California Clean Energy Jobs Act."

The Century Business Center Parkside

Village Environmental Impact Report (EIR) addendum modifies the in-lieu payment schedule for the developer's responsibility to now be "paid" by new ramps to the 105 Freeway at 120th Street, Van Ness Avenue and Imperial Highway, and at Van Ness Avenue and 120th Street, totaling \$557,000, to be completed over the next five years.

Mayor Juarez reported that SpaceX is adding 3,800 jobs in Hawthorne and the City is working to retain the business and its required workspace. Juarez's request for an audit of profits made by fireworks stands indicated a range of \$6,000 to \$18,000 in profits. The Mayor also requested that the Interim City Manager explore the possibility of Hawthorne Airport becoming a filling station for planes involved in fighting various brush fires that occur around Los Angeles.

The Council meeting was adjourned in memory of State Senator Edward Vincent and community volunteer Jack Wilson.

Prior to the evening's end, the Successor Agency to the Redevelopment Agency meeting was held. During this session, Interim City Manager Arnie Shadbehr announced that a Redevelopment Fund handover to the State, in the amount of \$5.8 million, will mean that the general fund will be affected as the Redevelopment Funds only have a \$1.5 million surplus of funds available to give back to the State. Non-payment could result in a fine of \$10,000 and a withholding by the State of any sales tax and gas tax revenues due the City. Bond obligations could be compromised by the need to make this fund handover. The Council agreed by consensus to send a letter of protest of the payment when the Redevelopment Fund is mailed to the State with copies to all relevant legislators.

The next meeting of the Hawthorne City Council will take place on Tuesday, Oct. 9 at 6 p.m. in the City Council Chambers. •
